POWER BI PROJECT

Car Sales Dashboard

Pricing, revenue and market value

Mohamed Riduvan Azber

548K

used car sales analyzed

THE QUESTIONS

Three questions this dashboard answers

Who

Which brands earn the most revenue?

How much

How do selling prices compare to market value?

Why

How does model year affect price?

THE BUILD

From raw data to dashboard

1

Clean

Power Query: blanks, text, dates, body groups.

2

Model

One clean sales table built for analysis.

3

Measure

DAX: revenue, units, price gap, % above market.

4

Visualize

KPIs, trends, rankings and slicers.

THE NUMBERS

$7.51bn
Total revenue

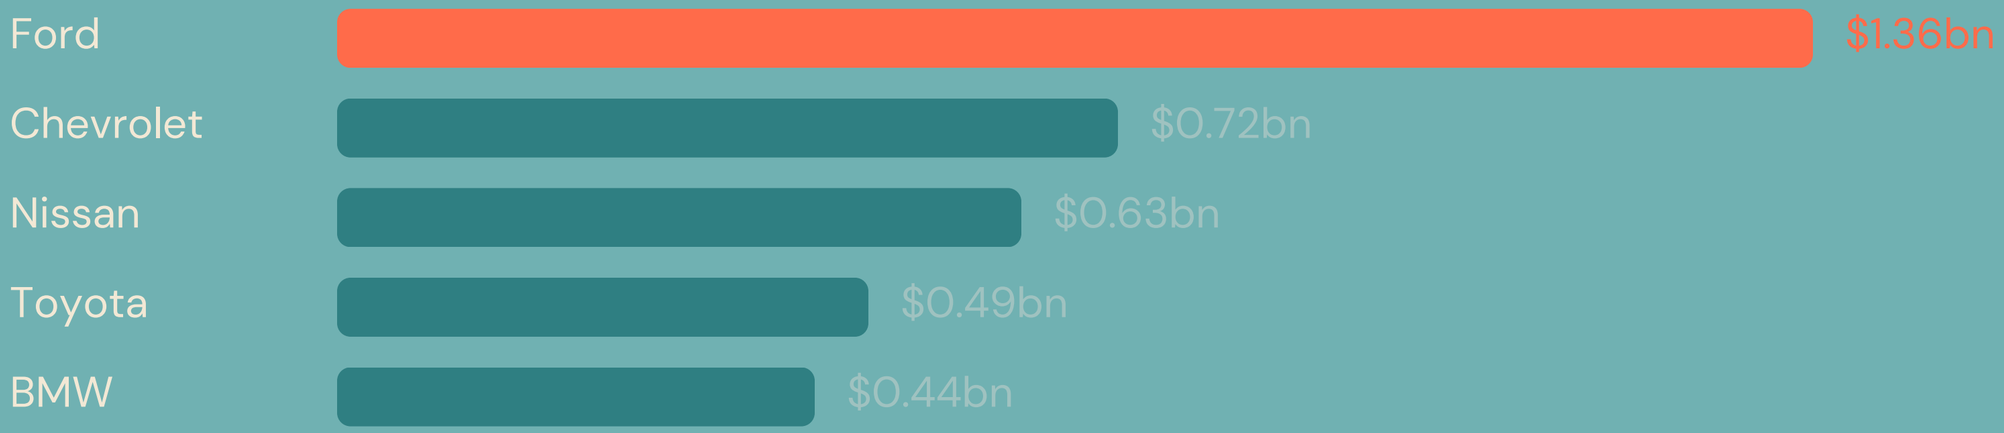

548K
Units sold

$13.69K
Average price

47% of cars sold above market value

TOP BRANDS

Ford leads revenue at $1.36bn

WHAT I FOUND

Four takeaways

47%

of cars sold above market value.

Luxury

brands like Rolls-Royce and Ferrari top average prices.

Ford

leads revenue, ahead of Chevrolet and Nissan.

Newer

model years sell for far more, rising sharply after 2005.

Thank you!
